

Archie .

August 8, 2008 - June 25, 2024

Our hearts are broken by the loss of our sweet, silly, floppy boy. Archie, you were so unique and irreplaceable. I loved everything about you and am so thankful that I found you in the road that day so long ago. Sometimes you were nervous but other times you were brave. You had such a genuine and bright spirit and made us laugh constantly. You loved your pants and were such a good boy for your diaper changes. I am so proud of you. Your brother and sisters loved you endlessly and I know you loved them too. I am so sorry you had to grieve their losses with us, and that you were so sad without them. Thank you for helping mommy and daddy through such a difficult time. We miss you desperately, sweet boy, but we are comforted knowing that you are no longer in pain and you are no longer suffering. I hope you, Henry, Zoe, and Clementine are together, eating snacks and lying in the sun. You can eat anything you want now and it won't make your tummy hurt. You were so cute, but your soul was even more precious. Thank you for our morning coffee snuggle time every day sweet baby, it hurts so much without you. We love you forever, our handsome prince.
