

## CJ

April 1, 2004 - July 24, 2020

I had CJ for half my life and while she was always a grouchy lady, it seems so weird without her now. I always walked in the door and said "Hey my sweet babies and CJ!" ?? I miss doing that now. She liked affection on her own terms and loved to lay around in weird positions (usually on her back with her feet up in the air!) and went crazy for catnip toys. She was mean, but she was mine.
