

Daisy May

April 8, 2008 - January 2, 2020

Daisy was the most affectionate dog we have ever owned. She slept right next to me every night. She was a character though, always stealing food from my husband's unattended plate and treats from our other dog. Once she had it there was no giving it up! She loved our Little Bit, she would clean his ears and eyes like a mama cat. They were the best of friends (excluding where food was involved!)?? One of the hardest things in my life was letting go of my baby Daisy. We miss her terribly and always will love her.

About Daisy May
