

## Kira \_

January 1, 2016 - November 9, 2020

"Kira was the sweetest cat I've ever known. She was found in a box and was the only one still alive amongst the litter. This early experience along with her Manx cat personality made her very receptive to emotions and attached to humans. Regardless of whether someone met her for the first time or not, she was always content to roll over, show her fluffy belly, and be cuddled while purring. She changed lives of every one that she came in touch with. We love you and miss you, Kira.

Nickname(s): Kira Kira
