

## Lola .

October 10, 2013 - March 8, 2026

Lola was a rescue who came to live with us 4 yrs ago in 2022. She had been left in her backyard with a neighbor feeding her and giving her water, due to changes in circumstances of the owner. She was given to a rescue organization when she was neglected and her nails were growing into the pads of her feet. She had also suffered a very traumatic injury earlier in her life that left her with spinal and neurological damage that was debilitating and painful. We were so happy to give her a happy home
