

Memphis Belle Limoli

August 27, 2008 - July 7, 2022

Memphis Belle joined the family right after the last of her one and only litter were all rehomed. Her original doggie Momma, Karen, was the children's ministry leader and socialized "Belle" with the passion and dedication of a loving parent. When Belle first arrived at her new home in Tennessee she enjoyed the security of her completely fenced in backyard but remained an air condition loving, ice cube chewing, peanut butter licking indoor fur baby. She was also the representative mascot and director of security for www.LIMOLI.com. Frequently participating in virtual ZOOM meetings she was family to most all of my close friends and clients. Her level of activity and overall health stayed with her up until the last year. In Tennessee she lived and played on one level but moving back to Sandy Springs reintroduced the stairs of her youth. We rearranged the townhouse so that evenings together were all shared on the main level with easy access to several of her fluffy beds, the back porch, wildlife companions and potty breaks. Belle remained somewhat active and lucid up until the medications became simply palliative. Her regular vet referred us to one with a mobile option yet her most memorable ride will remain her last as she enjoyed the smells of the morning sunshine and cool breeze. Her ashes and paw print are finally home. Her place in my heart will forever hold her memory. Rest In Peace my sweet Memphis Belle. I will see you at the bridge.
